

BIO OF CEO/FOUNDER

As a pharmacist registered in the state of Maryland since 1993, Dr. Granado-Boesel's diverse international experience as a pharmacist and healthcare manager/administrator/educator has cultivated her professional outlook and philosophy. Her long-term goal is to enable the public's understanding of the usefulness of the personal clinical Pharmacist as their subject matter expert in medication therapy. She continuously strives to educate the public; especially those who suffer from chronic long-term diseases, about new evidence based diagnostic tools that are available to assist their prescribers in carefully and precisely choosing their medications to live safer and healthier lifestyles. Her philosophy is that it can be achieved through the assessment process of Comprehensive Medication Therapy Management and Chronic Care Management in conjunction with the physicians and dispensing pharmacists.

Dr Granado has had the privilege of serving voluntarily in non-profit organizations offering healthcare to indigent communities. She has also held leadership roles such as, Secretary General for the Caribbean Association of Pharmacy when she coordinated the 21st Commonwealth Pharmacy Meeting for 57 Commonwealth member nations in Trinidad and Tobago. She currently serves on the Executive Board of the MD-ASCP (www.ascp.com/chapters/maryland-chapter) and was the Membership Committee chair, while also serving on the National ASCP Business and Innovations Task Force. She has been involved with coordinating and mentoring Pharmacy students through the MD Pharmacy Coalition (MPC) (www.marylandpharmacist.org/?page=MPC) on Legislative Day and is a member of Maryland First Responders Corps

Dr. Granado has also dedicated her time to working with the Cancer Society & Blood Bank Associations in Trinidad, and the American Red Cross in Germany. She was Service Chair and Vice President for MCCW-Europe, and through Servol International, she opened a clinic for the indigent population in her homeland and created programs for assisting the illiterate to adhere to their medication regimens.

Dr. Granado has been a long time member of the St. Vincent de Paul Society internationally and is a current member of the Systemic Change Committee for the SVDP Most Holy Redeemer Conference in Annapolis, MD. She had spent 3 years in Prison Ministry in Annapolis prior to her departure to the Military. While serving as sub- committee Service Chair of the American Women's Club of Trinidad and Tobago, she worked alongside the team which established the Anthony Pantin Re-Integration Program for prison inmates.

Dr Granado holds a Master's of Science in Instructional Design and Education from St. Leo University, FL, and a BA in Chemistry from St. Anselm College, NH as well as an AAS Entrepreneurship and a Certificate in Healthcare Mgt. from Anne Arundel Community College. She served as Chief, Pharmacy Services as a Medical Services Pharmacy Officer in the US Army in the European Theater.
